Dear Sir/Madam

I hereby like to give thanks to the various activities that you are rendering for the school, particularly to the learners.

I understand sometimes the conditions become difficult to work under but you keep on doing it for the benefit of our community, I appreciate it. In terms of health issues our kids have improved a lot. They are now changed people and those who are facing emotional problems have been satisfactorily attended. As this school is very poor, our kids are advantaged to have access to computers and they are enjoying it.

I cannot count all the services you are rendering to us. I sincerely thank the food parcels you have just given to our needy learners. I have to give thanks since you have discovered one of the basic needs for most of our community learners. I appreciate everything you are doing for the school. I can feel your presence and I am prepared to continue joining hands with you for the benefit of the blessed souls.

Yours Faithfully

Xulu J.J (Principal)
